## PROJECTS

---

### **Spotify Music Tracker – (Ongoing)(Electron App – Node js)**

March 2020 to Current

- Developing a music tracker for Spotify with their API that documents recently heard music. Aiming to display trends of music taste over certain periods of time.

### **Desktop Launcher – (Ongoing)(Electron App – Node js)**

Feb. 2020 to Current

- Developing a desktop launcher and file manager that primarily substitutes the need for windows shortcuts by getting the icon images from the target files of shortcuts.
- Possible Integration – C# for additional windows libraries.

### **Personal Assistant – (Ongoing)(Python)**

Dec. 2019 to Current

- Developing a personal assistant that I would like to integrate with my desktop launcher for web search capabilities along with web scraping.

## EMPLOYMENT

---

### **Mastercard**

**Intern – PTS Customer Delivery** · June 2019 to Aug. 2019 · O'Fallon, MO

- Enhanced a customer questionnaire process with a using macros in a Microsoft Excel model to create controls and standardization for risk management
- Took part in "Innovation Challenge" where interns are meant to create a pitch for a new business idea

### **White House Liquor**

**Cashier** · Oct. 2018 to April 12th · Rochester, NY

- Helped implement an online point of sale system (ECS) through web api's for e-commerce.
- Engage with customers, complete purchases and financial transactions and answer questions about inventory
- Organize inventory by specific categories to enhance customer experience

### **The Pastry Hideaway**

**Junior Chef/Counter Staff** · June 2017 to Jan. 2018 · Wilton, CT

Collaborated with head Chef to prep bakery items for customers to maintain efficiency of workflow and organization
